📍 Ahmedabad, India (Open to Remote) | ✉ kinju011@gmail.com | 📞 +91 97126 22239

Professional Summary

Ruby on Rails Developer with 8+ years of experience delivering SaaS, e-commerce, and healthcare platforms for US, UK & Japan-based clients. Specialized in remote collaboration, API design, and performance optimization. Contributor to open-source (Neo4j Ruby driver), with a proven ability to communicate across time zones and deliver high-quality features in distributed teams.

Core Skills

- Backend: Ruby, Rails 6/7, REST & GraphQL APIs, ActiveRecord, Sidekiq
- Frontend: HTML, CSS, JavaScript, Hotwire
- Databases: PostgreSQL, MySQL, SQL Server, ElasticSearch, Neo4j
- Testing: RSpec, Capybara
- DevOps/Cloud: Docker, AWS, CI/CD (GitHub Actions, GitLab CI)
- Other: Agile/Scrum, Localization, Remote Collaboration

Experience

Bacancy Technology & IQ LABS LLC, USA (Remote) – Ruby on Rails Consultant

Apr 2022 – Present

- Collaborated with distributed teams (US, India, Japan) to deliver features across time zones.
- Built & optimized Neo4j Ruby Driver, enhancing open-source adoption for graph databases.
- Contributed to e-commerce solutions with multi-payment integration & localization for Japan.

Cuelogic Technologies (LTI Company), Pune – Sr. Product Engineer

Apr 2021 – Apr 2022

- Delivered SaaS features for enterprise clients in Agile sprints.

- Enhanced application performance by 35%, reducing cloud costs and improving scalability.
- Collaborated remotely with cross-continent QA & DevOps teams.

Applocum International, Ahmedabad – Ruby on Rails Developer

Oct 2019 – Apr 2021

- Developed healthcare apps enabling 1,000+ daily video consultations between UK patients & doctors.
- Integrated APIs with mobile platforms, ensuring HIPAA-like compliance and scalability.

Devise Software Solutions Pvt. Ltd. & Times Dev Center (Baroda) – Software Engineer (.NET)

2016 – 2019

- Built healthcare & enterprise software in .NET, later transitioning to Rails stack.
